PRODUCT DESCRIPTION

HASEGAWA's Cutting Board SCRAPER is proud of its outstanding scraping power. It erases tough spots, yellowing from use, molds and mildews, grooves and feathering from the surface of your cutting boards. On top of that, it comes with a finishing surface that allows surface smoothing after the scraping. With its patented technology, the abrasion material stays on and rarely peels off

before it is fully used up.

[NOTE] - Everyday Care for the Cutting Board is of utmost importance from a Hygiene viewpoint. This product is made with this "Daily Maintenance" for the cutting board in mind. While it is definitely possible to erase and scrape off all the dirt, please be reminded that great effort is needed for the scrapping process as it is not a machine.
